

84. (New) A machine according to claim 77, wherein the maneuvering system is configured to steer the pair of rear supports.

85. (New) A machine according to claim 77, further comprising a chasis coupled to the pivotable rear support, the chassis including a support plate and a yoke member, the yoke member being rotatable relative to said support plate.

86. (New) A machine according to claim 85, wherein the steering hydraulic cylinder is coupled between the support plate and the yoke member to steer the pivotable rear support.

REMARKS

By this Preliminary Amendment, Applicant has added new claims 12-86. Accordingly, claims 1-86 are pending in this reissue application. At least one of the newly added claims is broader than claims 1-11 issued in the '615 patent. Since this reissue application is being filed within two years of the issuance of the '615 patent, this broadening reissue application is permitted under 35 U.S.C. § 251, fourth paragraph.

Pursuant to 37 C.F.R. § 1.173(c), the appendix to this amendment identifies
exemplary support in the '615 patent for the newly added claims.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
GARRETT & DUNNER, L.L.P.
